QUESTION TO AI:

I would like to create a video where I can choose a presenter and upload script of approximately 4,000 characters. And then be able to and then be able to download the creating MP4 video file for free here please list 10 websites that I can visit and attempt to accomplish this goal.

ANSWER:

1. Animaker - https://www.animaker.com/
2. Lumen5 - https://lumen5.com/
3. Renderforest - https://www.renderforest.com/
4. Biteable - https://biteable.com/
5. Powtoon - https://www.powtoon.com/
6. Moovly - https://www.moovly.com/
7. Animoto - https://animoto.com/
8. FlexClip - https://www.flexclip.com/
9. Magisto - https://www.magisto.com/
10. WeVideo - https://www.wevideo.com/

These websites offer a variety of features, including the ability to choose from different presenters and upload scripts. Some of them also offer a range of customization options, such as the ability to add music, images, and other visual elements to your video.

It's important to note that while many of these websites offer free video creation tools, some of them may require you to create an account or pay for premium features to access certain elements or download the final video. Be sure to read the terms and conditions carefully before using any of these tools.
